

Overview memberships

Organization	Type of organization	Website	Contribution Category [k€]
Groen Gas Nederland (GGNL)	Green Gas Netherlands represents more than 125 companies and organizations in the biogas industry and focuses on the production and sale of renewable gas and supply chain integration for an efficient and profitable renewable gas market	https://groengas.nl/	In kind
The Dutch Platform Geothermie	The participants in the Geothermal Platform are a growing and diverse group of organizations with a shared aspect of the shared interest in geothermal heat. The Geothermal Platform represents both the demand and the supply side and participants include permit holders, (geological) consulting firms, knowledge institutions, provinces and municipalities, drilling companies, financial institutions and users of geothermal heat.	https://geothermie.nl/index.php/en/	<10
Transitiecoalitie	The Transition Coalition is an initiative of more than 60 organizations aiming to accelerate the energy transition.	http://transitie-coalitie.nl/	<10
Vereniging Gasopslag Nederland	Gasopslag Nederland is an association that represents the interests of gas storage operators in the Netherlands and aims to put forward all our members' opinions about gas storage in discussions about Dutch and European gas legislation.	http://www.gasopslagnederland.nl/en/	<10
The Confederation of Netherlands Industry and Employers (known as VNO-NCW)	Employers' organisation representing the common interests of Dutch business, both at home and abroad	https://www.vno-ncw.nl/	<10
Bioenergy Europe	Non-profit association for the bioenergy sector aiming to develop a sustainable bioenergy market based on fair business conditions	https://bioenergyeurope.org/	<10
Warmtenetwerk Foundation	The Warmtenetwerk foundation wants to stimulate innovative combinations in the Netherlands and Flanders and to promote the exchange of knowledge with organizations elsewhere in Europe. Via a pipeline system all kinds of sustainable heat and cold such as sun, biogas, geothermics, wood and water can be used effectively. At the same time, residual heat from industries such as waste incinerators, combined heat and power plants can also be used via the same pipelines.	http://www.warmtenetwerk.nl/	<10

Organization	Type of organization	Website	Contribution Category [k€]
Platform Bio-Energy (PBE)	Platform Bio-Energie (PBE) is the organization for promoting sustainable and socially accepted use of bio-energy in the Netherlands within an adequate and stable policy and regulatory framework	https://www.platformbioenergie.nl/	>10 - 50
